

CUPA NATURAL SLATE – CPD SEMINAR

# Specifying Natural Roofing Slate

**CUPA**  
NATURAL SLATE

UNIQUE BARCODE TRACEABILITY

## CPD SEMINAR FROM CUPA NATURAL SLATE

# Specifying Natural Roofing Slate

The CPD Seminar from Cupa Natural Slate identifies the key design and technical features needed when specifying natural slate.

The presentation explains the manufacturing process, the importance of traceability, vital testing standards and accreditations, classification of slate and certain issues to be aware of to ensure confidence when specifying natural slate.

At the end of the presentation each delegate will have an increased knowledge and awareness of natural slate and will be able to understand the different fixing methods and the importance of the CE mark.

## TOPICS COVERED INCLUDE:

- What is natural slate?
- The manufacturing process
- Quality testing methods
- Geology
- Climate differences
- Fixing
- Grading
- Lifecycle
- Approved standards
- Ecological factors
- Design specifications
- Case studies

## ABOUT THE SEMINAR

- 45 – 60 minutes duration
- Question and answer session
- RIBA CPD certification
- Practical demonstration
- Buffet supplied
